Metal Designs.

For Cemetery Decorations there is nothing more suitable than these metal designs ornamented with China flowers. They are really fine, stand the weather, and will keep for years.

We have imported a choice assortment of *Anchors*, *Wreaths*, and *Crosses*, in different sizes, ranging in price from $3 to $15 each. Flowers are in white, pink, and cream; foliage, green and shaded. They are perfect and will give satisfaction wherever used.

Gold-Fish.

There is nothing so pretty and desirable as a pair of nice Gold-fish and a globe to keep them in. They ornament the room and are a pleasure to all in the house. There is no trouble in keeping them. Change the water two or three times a week; use river-, pump-, or cistern-water; and clean the globe well once a week. An aquarium needs changing only about once every three days. Feed on fish-weaver, and but very little. Ten cents' worth is sufficient for four months. They can be shipped to any distance at buyer's cost and risk.

Two fish, food, and can $1 25
Six fish, food, and can 2 50
Twelve fish, food, and can $4 50

Fish Food. Per packet, postpaid, 15 cents; per dozen packets, postpaid, $1.

INTRODUCTION

TO

Plant Department

WITH the approach of another spring we beg leave to present you again with our appearingly modest catalogue, modest in outside appearance, but a careful observer will readily discover the fact that it contains not only all the *choicest* and *best* the world produces in floriculture, but that the most complete assortment of plants to be found west of New York State is offered at remarkably low prices.

The steady increase of demand for our plants is the best proof that our aim for over a quarter of a century has been to do a square, honest business, and it shall be our endeavor to merit the approbation of all who intrust us with their orders in the future.

The wonderful improvements made yearly in all classes of plants will be found described in the various departments; let it suffice for us to say that we have spared no expense to offer again only such Novelties as have proved their high standard in robust, healthy growth, and real novelty in all other respects.

Our Seed-Farm and Nursery contain thirty acres of the very best land, situated at the borders of the famous Blue-grass country.

Our Green houses number thirty three, all in perfect order and heated throughout with hot water, which produces the healthiest atmosphere for the production of hardy plants This will show we are able to grow plants of all descriptions in any quantity, and to a high degree of perfection, and will also explain how we are able to sell at such extremely low prices.

Thanking our numerous customers of past years for their liberal orders and kind expressions of good-will, we have the honor to remain,

Your obedient servants,

NANZ & NEUNER.

FACILITIES.

The central locality of Louisville, the facilities of distribution by mail, express, railroad, or steamer can not be surpassed. Add to these advantages our careful mode of packing (for which no charge is made), than our guaranty of safe delivery to all parts of the United States, and all parties who have not favored us with their orders in the past may feel induced to give us a trial order in the future.

A FEW HINTS TO OUR FRIENDS.

Please Use the Order-Sheet, which is attached to every catalogue, to make out your order. If it is necessary to write a letter in addition it is better to write on a separate sheet, or at least separate from the order.

How to Order Plants.—Please state always whether you want your plants sent by mail or express; in the latter case whether in or out of pots. If the plants go a great distance they will have to be shipped without pots, to pack securely and lessen express charges; but where the distance is short a great many people prefer to have the plants shipped with the pots, to keep them undisturbed.

Plants by Express.—It will be to the interest of purchasers to receive their plants by express whenever it is possible to do so, as large and fine plants can be sent best in this way. We will include extra plants to compensete for express charges. Please mention by which express company you desire your plants sent wherever more than one company has an office. We make no charge for packing.

Plants by Mail.—We make a specialty of growing hardy, vigorous young plants to be shipped through the mails free to any part of the United States, and it is the wonder of many to receive their plants in such excellent condition, no matter at what distance from here. Orders must amount to at least one dollar.

If Plants Perish in Transit the Loss is Ours.—Sometimes by unavoidable accidents plants perish on the road. *If promptly notified of the fact by return mail,* and if a list of the respective plants be sent us, they will be duplicated at once. We always try to do even a little better than we promise or than fair dealing requires.

Our prosperity depends upon your receiving satisfaction.

Size and Quality of Plants.—To judge by careful observation and by testimonials we receive, the plants we are in the habit of sending out are always larger and finer than those of any competing house, and we try to keep up this reputation. Our liberality is becoming proverbial with our old customers

Selection of Varieties Made for those who desire it.—It is difficult for you to judge of the merits of the different varieties by description and we shall at all times be pleased to make selections for any of our friends who would prefer to rely upon our judgment.

All Plants Labeled.—All plants sent out by us are distinctly labeled.

Cheapness of Plants.—The prices of our plants, quality considered, are very reasonable; in fact, the lowest in the market, considering that nearly all our plants are grown to larger size and proportion than most of our competitors are in the habit of growing.

Our Terms are invariably Cash with the Order.

Please write your Name in full, giving Post-office, County, and State; also street and number in large towns; amount of money inclosed. We can also ship C. O. D., return charges on money to be paid by purchaser.

TREATMENT OF PLANTS ON ARRIVAL.

Plants shipped by express suffer little, if any, as the roots get disturbed but very little if taken out of pots. Some water and shade for a few days will re-establish any plant.

With plants received by mail more care and precaution have to be taken on arrival. On all plants to be shipped by mail most of the soil has to be removed from the roots in order to lessen the weight, and damp moss and paper take the place of the soil.

If the plants are in the least wilted on arrival put them in lukewarm water in a shallow pan for about one hour, leaving the paper and moss undisturbed. This will soon restore their vitality.

In potting the plants, after removing moss and paper, use clean pots and loose, fine soil. Take pots only one size larger than the one the plant has been grown in. Press the soil well down after placing the roots in a natural position, leaving half an inch empty space above the soil for the pot to receive the water. Water should be applied until it runs out at the bottom of the pot.

Keep shady and from the wind or draft for four or five days. Sprinkle the leaves every day, but take care not to wet the soil in the pot too much, which would make the roots rot.

In any case avoid extremes in watering or drying out.

If the plants are to be cultivated in pots, most of them will be ready to be shifted into larger-sized pots in from two to four weeks, according to nature of plants.

Bedding-plants can be set out at once in the open ground by observing the above rules about watering and shading, provided there is no danger of frost, etc.

OUR PRICES.

On comparison you will find that our prices are as low as any responsible house, in fact as low as good plants can be produced any where, at a living profit. Add to these low prices (quality considered) our Premiums and Clubbing Rates, and you must admit that no other house can offer you such inducements.

We have but one price for all our customers alike.

OUR PREMIUMS.

It has been our custom, and a successful one it has proved to be, to offer every spring, some of the most valuable and most desirable plants as premiums, on all orders, and the conditions on which the same can be obtained are given immediately below the premiums.

LIST OF PREMIUM PLANTS.

New Tea-Rose, Princess Beatrice.—Offered for the *first time* this spring. It has with us proved to be a first-class Tea-rose of vigorous, erect growth, thick, handsome foliage. Outside petals pale yellow, center rich orange-yellow, edge of petals laced bright rose. Please do not judge this new variety from first imperfect flowers. This sort will become one of our standard varieties.

New Tea-Rose Comtesse de Frigneuse.—We find this to be an excellent bedding rose; in color charming delicate canary yellow; fine in bud, and handsome foliage. It is hardy with protection and deserves to be grown extensively.

Canna Ehmanii.—For tropical effect, grown isolated or as center plant of a group, few plants equal this splendid variety; the foliage is large, green, like banana leaves, while the numerous flowers are large, gladiolus-like, of a pleasing bright carmine.

New Abutilon, Golden Fleece.—This is the showiest of all Abutilons; the flowers are large, bright canary yellow, and hang gracefully among the deep-green foliage. Its growth is strong and symmetrical, therefore well adapted to be grown singly as a show-plant or massed with others of contrasting colors.

Geranium, New Single, Mrs. H. Nanz, Sr.—An excellent bedding variety of richest bright salmon center with white border suffused with rosy orange.

New Coleus, Rag Carpet.—Very showy, extra large foliage of remarkably rich coloring, outside serrated border smaragd, green followed by chocolate-brown border dotted yellow, while inside of leaves is fiery rose carmine with yellow base, very distinct.

New Perpetual Carnation, Anna Webb.—Next to the rose comes the carnation, for loveliness and fragrance, and this variety combines a strikingly rich dark crimson color with healthy, strong growth and continuous bloom.

New Heliotrope, Bruant.—A new favorite sort; very fragrant, large, showy, dark purple flowers with silvery eye.

TERMS FOR THE PREMIUMS.

IF PLANTS ARE SENT BY EXPRESS.

Every customer sending us one dollar can select any one of the last six premiums.

Every customer sending two dollars can select one of the roses or the Canna Edmanii or any two of the other six plants

For a three-dollar order you can select one of the roses and any three of the other plants.

For a four-dollar order you can select five premiums.

For a five-dollar order you can get all the premiums.

To all orders amounting to more than five dollars we will add other plants of our selection, but will consider the wishes of our customers as far as possible.

If the order is to be sent by mail, ten cents will have to be inclosed for every premium plant ordered, to pay postage, etc.

Parties preferring any premiums offered the last two years can be accomodated.

Persons who order repeatedly, and already have above premiums, can select any sorts of the same class of plants from general collections, not from the novelties.

CLUB ORDERS.

It is in order to secure, by the co-operation of a good many persons, great numbers of orders from people who might not have purchased from us but for their efforts, that we make the following liberal offers, with some items to be observed:

A club order must amount to two dollars. The amount of money sent by each member of the club should be distinctly stated.

We can send the order of each member of the club separately to his own address, provided the order amounts to at least one dollar If sent together to address of getter-up of the club we present extra plants to compensate for the trouble of distribution.

BEGONIA RUBRA.

SPECIAL OFFER.

In Europe the massing of Roses is as popular as the massing of one color of Geranium or foliage plants here, and to encourage this massing of Roses here we offer the following sorts of Roses at special rates. No premiums or any other inducements included at these prices.

By express, per hundred, $6, grown in 2½-inch pots; fifty for $3.50.

Agrippina, dark velvety crimson; very free bloomer and showy.

Hermosa, deep rose; splendid bedder and perfectly hardy.

Ct. de la Barthe, deep rosy blush; excellent bedder; extra.

Bon Silene, fine rosy carmine, very sweet.

Bougere, rosy bronze, very double and free.

Etoile de Lyon, hardiest of all yellow Tea-Roses.

Marie Guillot, large pure white, very fine.

Sombruil, no doubt the best Bedding Rose, large white, lightly tinged, rare when opening. Per hundred $7; fifty for $4.

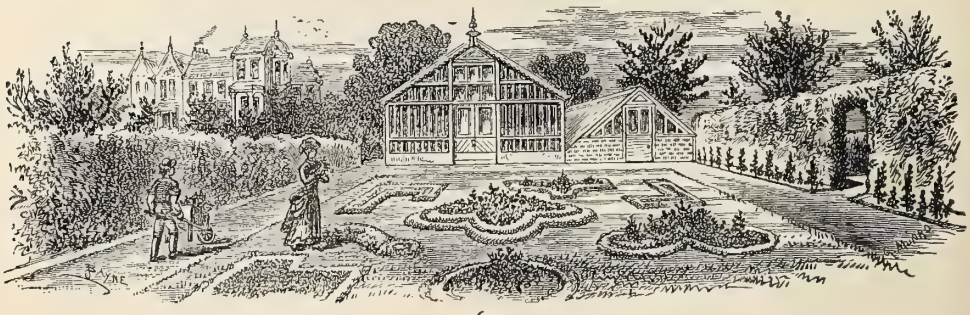
Malmaison, equally good and fine bloomer and bedder. As above per hundred $7, fifty for $4.

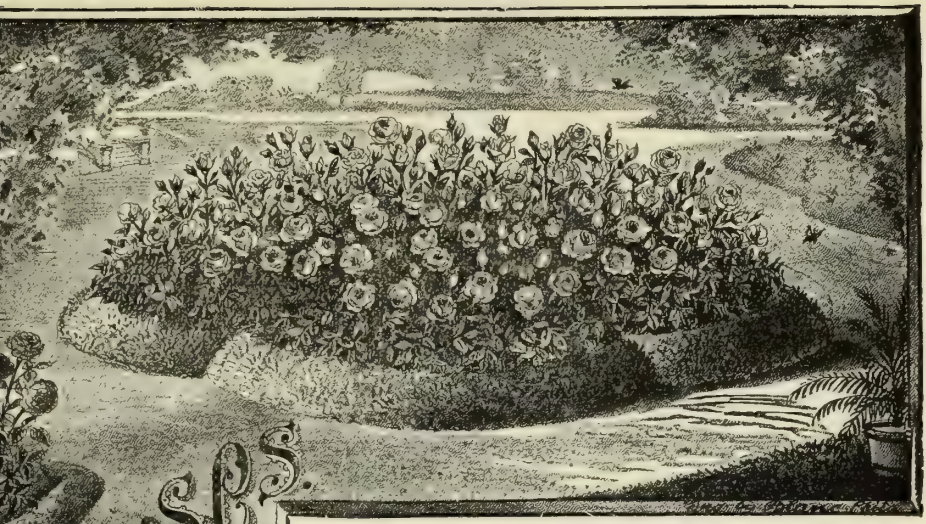
Queen's Scarlet, deepest carmine; fine.

Paquerette, pure white polyantha rose.

Migonnette, pearly rose; enormous clusters.

These last two sorts are especially adapted as border plants surrounding a bed or any of the other sorts.





ROSES.

Our roses are becoming more celebrated every year. They are especially sought for because of their vigorous and healthy condition on arrival at destination; their unequaled beauty and choice selection giving quick and constant bloom at once.

We make a specialty of roses, and have over 200,000 on hand this spring, grown—

(1). In 2- and 2½-inch pots, especially prepared to be sent by mail.

(2). In 3½- to 6-inch pots, to be sent in bud or bloom, by express, to any part of the United States or Canada.

From the innumerable varieties introduced every year, we retain only such as have the following qualities in the full sense of the word:

1. *Vigorous and healthy growth*; 2. *Beauty of form*; 3. *Fragrance*; 4. *Profusion and continuity of bloom*; 5. *Beauty of color.*

The fall of the year is of course the time when especially Ever-blooming Roses come to perfection, and then is the best time to judge about the merits of each variety.

CULTIVATION OF ROSES.

Pot-Culture for House and Conservatory.—The Ever-blooming Roses are best for house-culture. Have good rich soil mixed with one fifth sand. Sods and well-rotted cow manure make the best soil for roses. After potting, the plants ought to be thoroughly watered and kept from the burning sun. The earth should be moderately dry before watering again. If the rose gets too large for that pot, shift into one or two sizes larger, but do not use too large pots.

The rose should always be pruned when potted; as a general rule, shortened about one half. Plunge the pots in the ground out doors during summer

We furnish roses, suitably prepared for winter bloom, during the fall and winter months.

Garden Culture for Roses.—Have your beds well-drained, good, rich soil, enriched with old manure only—cow manure is best. Plant the tender roses only in the spring; the hardy sorts can be planted also in the fall to great advantage. Dormant plants should by all means be set out early; frost does not injure them like the tender varieties. Pot-grown roses can of course be planted out any time in the spring and summer.

Pruning.—March and April are the best months for this operation. Moderate pruning insures growth and more blooms. Cut out all decayed wood.

Protection.—Do not protect too early; give the wood a chance to ripen out. On our own grounds we draw the surrounding soil up about a foot around the bushes, and let the rest of the branches freeze, and find this is the surest and best protection.

Roses in Beds or Masses.—To produce the finest effect Roses ought to be planted in beds or masses. No other flower should be planted with them.

Rose Hedges.—A rose hedge in full bloom produces a gorgeous effect. The plants ought to be kept trimmed all summer by cutting off all old flower-shoots to an equal length as soon as the flowers fall off. In March a general pruning and cleaning ought to take place. [See Special Offer, page 8.]

For newest Roses of latest introduction, see Novelties.

☞**Notice.**—No variety of roses which has price attached can be selected at above rates

Experience has taught us roses grown in 3½-x 4-inch pots and sold by us at $3 per dozen give the *quickest* and *surest* results and satisfaction; equally good, but requiring a few weeks longer to form buds, are those grown in 2½-inch pots, and offered at $1 50 per dozen. We wish to call especial attention to these two sizes; we can guarantee satisfaction and present gratis plants enough to help pay express charges. Our stock of them is large and fine.

TEA-ROSES.

What is more delicately beautiful than the ever-blooming Tea-Roses? What refinement of colors, what powerful fragrance they possess! They excel all other classes in their superiority for bouquets and cut flowers. They reach perfection in autumn All of them need protection in winter.

Alphonse Karr. One of the later introductions, semi-double flowers of a dull crimson-red, shadeed lighter in the interior of the open flower; very fine.

Adrienne Christophle. Coppery yellow.

Adam, rose with salmon center; very sweet, free bloomer.

Aline Sisley, free bloomer; color varying from red to purplish rose; a splendid sort; exceedingly select.

American Banner, flowers carmine, rose, striped with white; growth very neat.

Anna Oliver, very double, color a lovely creamy-blush, shaded with deep carmine, tinged silver-rose.

Aurora, very pretty and valuable; beautiful rosy blush, changing to clear-rose; very pretty and fragrant.

Beauty of Greenmount, dark rosy-red, changing to deep crimson; blooms freely; good grower.

Beauty de l'Europe, robust growth, excellent form, large and full; color deep yellow, reverse of petals, copper color.

Bella, pure snow-white; large size, very full and double; tea-scented; splendid, large, pointed buds.

Blanche Nabonnand, pure white, large, noble shape.

Bon Silene, one of the best winter-bloomers; rosy carmine, shaded salmon; very sweet.

Bougere, extra fine sort; rosy bronze; exceedingly sweet tea-scent; buds very fine.

Camellia, pure white, shaded canary-yellow; flowers very large, full and double.

Cels, a medium size flower, nicely rose-tinted, of flesh-color; free and constant bloomer, and about the hardiest of the Teas.

Catharine Mermet, bright flesh-color; large, full, and of beautiful form; decidedly one of the finest Teas. Fine bloomer for winter especially.

Claudius Levet, tea; fine carmine rose, shaded purple; center salmon; large and full. 15c

Clement Nabbonnand, cream color, shaded with light crimson, suffused with yellow; a strong-growing, free-flowered rose, producing quantities of fine, long buds during the hottest weather.

Climbing Devoniensis, of climbing habit, otherwise identical with Devoniensis.

Clothilde, creamy white, delicately shaded pale blush; full and sweet.

Clothilde Soupert, large, full, fine crimson rose.

Comtesse de Limerick, extra large, perfect salmon yellow.

Comte de la Barthe, one of the freest-blooming roses in existence; deep blush, cup-shaped flowers; very sweet, and one of the very best winter bloomers.

Comtesse de Barbenstein, clear flesh-color, with deep carmine center; large, full form; very double and fragrant; a noble rose.

Comtesse de Nadaillac, bright rose, coppery apricot at base of petals; flowers full, large, and globular.

Cornelia Cook, extra fine; pure, waxy-white flowers; extra large and perfect buds; fine winter bloomer.

Coquette de Lyon, canary-yellow; very pretty buds; a very free bloomer; this variety is worth recommendation.

Count Taverna, beautiful, deliciously scented; color pure white, with lemon-yellow center and shading.

Countess Riza du Parc, bronzed rose; flowers medium size, moderately full; highly perfumed; very vigorous, large and full.

Countess of Bath, rosy-salmon, perfect in bud and flower; good, free bloomer, finely scented.

Countess de Caserta, bright magenta, free bloomer.

Countesse de Frigneuse, tea; free bloomer, very fine shape, very sweet and bright; pure yellow; fine, long, buds. This is one good novelty out of twenty-five. 15c.

Chromatella, clear, bright yellow, good form and very sweet; highly prized in the South for a pillar rose

Devoniensis, large, creamy flowers; justly called the Magnolia rose; one of the sweetest roses in existence.

Douglas, or Crimson Tea, dark cherry-red, rich and velvety; large and double; an excellent bedding rose.

Duchess de Brabant, soft, rosy-flesh, changing to deep rose, edged with silver; extra free bloomer.

Duchess of Edinburgh, the first deep crimson-colored Tea-rose out; flowers good size, moderately full; fine buds; free bloomer; excellent for forcing.

Etoile de Lyon. This magnificent Tea-Rose originated at Lyons, France; color Chrome-yellow, deepening to pure golden yellow, very double and full; deliciously fragrant. It is perfectly hardy here, and therefore very valuable; only clear blooming yellow rose we have. It is equally valuable for forcing

Eugene Meynadier, a strong, vigorous grower, flowers very large and well-formed; color a rich violet, with crimson shadings.

Eugene Pattete, color distinct violet-red. Most beautiful leafage, and of fine growth. Long, conical buds, very distinct.

Edmund Gautier, pure lemon, with golden or chrome center. Of good, vigorous habit, and very flowering. A promising variety.

Tea Roses (Continued).

Elizabeth Babenzien, sulphur-yellow, darker center, free and fine.

Enfant de Lyon, a perfect gem; of pale golden yellow color, darker center.

Estella Pradell, one of the freest bloomers and growers; extra fine buds of purest white, with light yellow center.

Gloire de Dijon, one of our leading varieties; one of the best and hardiest for general culture; flowers extra large, full and sweet, of rich, creamy-yellow color, shaded with amber; good climber for the South.

Gerard Desbois, bright red; of good habit, large and full.

Henri Meynadier. Flowers large, having broad shell-like petals, thick and of good substance, color unique rose, prettily shaded and delightfully scented.

General Tartas, a first-class bedding rose; rosy-carmine, shaded purple; very free bloomer; very sweet.

Grace Darling, rich carmine pink, shaded peach; extra in every respect.

Homer, salmon-rose; free bloomer; moderately hardy; beautiful buds, varying in color.

Isabella Sprunt, the only real profuse winter-blooming sort; of light sulphur-yellow color; buds exquisite in shape and odor.

Imperatrice de Russie. A rose of a late introduction and a fine flower, large, full and imbricated, with fine petals. Light yellow, shaded with pink.

Jaune d'Or. Yellow, clouded with fawn; beautiful. Free in growth and bloom.

Jeanne Abel. Like that indefatigable variety Mad. Joseph Schwartz. Color light pink, darkening in the center to salmon-rose.

Jeanne d'Arc. Fine yellow. Large, of good form, and fragrant.

Jules Finger, bright red, changing to brilliant red.

Jean d'Arc, fine citron-yellow; full, globular form, very double; highly scented, very fine.

Jean Ducher, bronzy-rose, large globular flowers; very unique.

Jean Pernet, beautiful light yellow suffused with salmon-yellow; medium-sized but pretty buds.

Kate Metchersky, belongs to the M'me Falcot type, with dense, fine foliage; buds long and pointed, of perfect form; color light cream yellow, with rose and silvery shadings.

Ketten Freres. A new rose of the Gloire de Dijon style. Beautiful yellow flowers, of large size and excellent form; imbricated.

La Nuance, a beautiful rose, good size, very double; color salmon-rose, tinged and shaded with coppery-yellow. An elegant and very distinct sort.

Louisa de la Rive. Habit vigorous, flowers large, double, and of fine form; imbricated; color flesh-white, inclining to rose in the center.

Laure de Fenelon. Strong in growth, fine leafage, of good habit. Flowers large and finely formed; a bright satiny-red color; quite unique.

La Chamois, chamois yellow, white border.

L'Elegante, vivid rose, center yellow, shaded white.

La Pactole, cream-yellow center; extra free bloomer; a good sort.

La Princess Vera, flowers large and very full; white with copper-yellow.

Tea Roses (Continued).

Louis Richard, flowers large and full, of fine form; color coppery-rose, center deep rose; beautiful.

M'me Chedanne Guionisseau, exceeding beautiful, clear golden yellow; buds long and pointed.

M'me Eugene Verdier, large and well-shaped, dark salmon-yellow, extra.

M'me Remond, medium size, handsome form; color yellowish-white, center darker; very fragrant and very sweet.

M'me Welche, large and double, apricot yellow, shaded dark orange red, free flowering; an excellent sort.

M'me de Watteville, white, slightly shaded salmon-yellow, edged bright pink; exquisite.

Madame Bravy, creamy-white; fine shape; very fragrant.

Madame Bremond, bright red, slightly tinged with purple; one of the best red Tea-roses.

Madame Camille, large, double, cup-shaped flowers; light aurora rose.

Madame Caroline Kuster, pale, orange-yellow; free bloomer; an extra good sort.

Madame Devacout, a fine sort, clear canary-yellow; delicious tea-scent; beautiful, fine, and double.

Mad. Cusin, purple rose, white center, tinted yellow; large, well-formed.

Madame Falcot, deep saffron-yellow, good habit.

Madame Jules Margottin, delicate rose, edged yellow, the center often yellow.

Mad. Jos. Schwartz, an excellent rose, one of the best-blooming roses we have, buds white and pink tip; pretty and fragrant.

MADAME LAMBARD, large, full, exquisite fragrance, beautiful rose, tinged salmon buff, reverse of petals crimson.

Madame Leon de St. Jean, yellowish-white; large, rather loose flowers, extremely fragrant.

Mad. Margottin. This is a grand Rose, always a favorite, very large, perfectly double, elegant, beautiful dark citron yellow.

Madame Russell, an old favorite sort; a vigorous grower; creamy-buff, shaded pink.

Madame de Vatry, rose-shaded salmon; a choice old sort

Madame Willermoz, creamy-white, with fawn tint; thick petals.

Marie Guillot, a first-class rose in every respect; color pure white; extra large size; full and double; sweet tea-scent.

Marie Ducher, rich, transparent salmon, fawn center; large and distinct.

Marquis Nivens, tea, flowers pale rose, shaded yellow at center, a delicate and beautiful color, buds elongated; fine form. 15c.

M'me Angele Jacquier, light silvery-rose, shaded throughout with yellow, variable; flowers large and of distinct form; vigorous and free flowering; one of the finest new Teas.

M'me F. Brassac, a strong grower with fine foliage; flowers large and well-formed; color a novel, vivid red.

M. Chabaud St. Mandrier, of the same parentage as Duchess of Edinburgh; has a strong, healthy growth, with large leatherly foliage; of splendid habit; color bright purplish-red, shaded with yellow; a beautiful variety. 15c.

Marie Sisley, deliciously tea-scented color, an extra fine shade of pale yellow; fine margined rose.

Tea Roses (Continued).

Marie Van Houtte, white, slightly tinged with yellow, one of the handsomest Tea-roses; free grower and fine bloomer.

Marechal Neil, beautiful deep sulphur-yellow; very full and large and exceedingly fragrant. It is the finest yellow rose in existence. We have an extra fine stock of this variety. We sell the medium-sized plants at same prices as other varieties; two-year-old plants extra strong, that will certainly bloom, 75 cents each. Of this variety we keep also budded plants on the Manetti stock, which will grow three times more freely than those on their own roots, will prove more hardy and will bloom profusely. These budded plants we offer at $1 each; extra, $1.50. We would advise our customers to spend a little more money in order to procure a strong two-year-old plant or a budded one, because a small one-year-old plant dies on your hands almost every year. The Marechal Neil is naturally a climbing rose, and should not be pruned too short. When you plant out a budded rose, be sure and plant sufficiently deep, so that the junction of plant and stock gets at least two inches under the surface of the soil. 10c., 25c., and 50c.

Marechal Robert, pure white, inner petal slightly tinged; extra.

Meline Willermoz, a lovely creamy-white rose, tinged and shaded blush; extra large, very fine flowers.

Miss Edith Gifford. Of fine, vigorous growth, foliage similar to Perle des Jardines; flowers large, of heavy texture; very fine, both as bud and open flower. Color fresh white or cream, with very distinct pink center 15c.

Nathalie Imbert belongs to the semi-double section, and, like its class, is very free flowering. The buds are of good shape, and of a most clear carmine-rose color.

Noele Merle. Flowers large, quite double, and prettily formed Coppery rose in color, with light shading; sometimes tinged with salmon.

Mons. Furtado, bright sulphur-yellow; good, full form; fragrant fine buds.

M'me Francisca Krueger, orange-yellow; shaded flesh; full and perfect; a good bedder.

Nephitos, purest snowy white; long, well-formed buds, very sweet-scented; a fine winter bloomer if strong plant.

Ophelia, creamy-white; very large, perfect double flowers.

Papa Gontier. A magnificent red Tea, a seedling of Duchess of Edinburgh; flowers large and semi-double, a vivid rose color, reverse of petals crimson, free growing, and flowering very profusely; exceedingly fine. It was not given much prominence until 1886, when it was discovered to be one of the best for winter.

Perle des Jardins, beautiful straw color, sometimes deep canary; large, full, and of fine form; next handsomest yellow Tea-rose to Marechal Neil, and a freer and surer bloomer, but of dwarf growth.

Perle de Lyon, flowers deep yellow, changing to apricot; a fine sort that deserves to be recommended.

President, an American rose; rose color, shaded salmon, resembles Adam Tea.

Perfection de Montplaisir, medium-sized flowers of fine canary yellow.

Princess of Wales, outside petals rosy yellow, center rich, deep golden yellow; buds long and pointed.

Tea Roses (Continued).

Rosalie, an American variety, a remarkably free bloomer; color deepest pink; of fine miniature shape like Parquerette; very sweet.

Reine de Portugal, an elegant Tea-rose, large, very double and fragrant; color dark citron-yellow, with bright rose center, quite distinct.

Reve d'Or, a beautiful rose of climbing habit, suitable for trellis or pillar; cold pale orange-yellow or rosy-buff.

Reine Marie Henrietta, color beautiful cherry-red, of climbing habit; also called Red-flowering Gloire de Dijon.

Rubens, white, shaded with rose; long buds; large, full, and very beautiful.

Rovolli, flowers large; double; light rose, center brighter, reverse of petals silvery-white.

Souvenir de Theresa Levet, pure, clear crimson-tinted purple; powerful odor, very distinct.

Sunset is a "sport" from that grand old variety, Perle des Jardins, which it strongly resembles, except in color. The flowers are of large size, fine, full form, very double and deliciously perfumed. The color is a remarkable shade of rich, golden amber, elegantly tinged and shaded with dark ruddy copper, intensely beautiful, and resembling in color a splendid "afterglow." Sunset is a constant and profuse bloomer, and, taken altogether, is probably one of the finest roses recently introduced. It is particularly valuable for forcing and growing in conservatories. 15c.

Southern Belle, originated near Charleston, S. C., from Devoniensis. A most beautiful variety. Color rich cream, edged with light pink on end of petals; fine leatherly foliage, of good habit and splendid constitution. Very free flowering. A fine forcing variety.

Souvenir de Madame Pernet, one of the finest pink roses in existence.

Souvenir de St. Pierre, purple red, very large petals; first of this color in Tea-roses; very free bloomer. 5c.

Souv. Gabrielle Drevet. "Salmon pink, with center of coppery rose; of good size and fine form. We think this a promising new variety." We regard it as one of the very best introductions of later years. It is superbly rich, belonging to the class of "Tulip Roses," carrying such fine combinations of colors. 15c.

Susannah Blanchet, tea; flowers large, full, cup-shaped; pale rose, very sweet 5c.

Sombruell, creamy white, tinted with rose; very large, and according to our experience, the freest bloomer, the showiest and most thankful rose for general cultivation of all Tea-roses.

Saffrano, saffron and apricot; one of the oldest and best roses; in the bud shape it can scarcely be surpassed.

Souvenir d'un Ami, one of the best roses for bedding; large and very double, full and sweet; color deep rosy flesh, tinged and shaded with purplish-lilac.

Triumph de Luxumbourg, brilliant salmon, rosy carmine, finely nerved and shaded; one of the best old sorts

Valley de Chamounix, an exceedingly lovely rose, very sweet; color clear copper yellow in center, changing to white on outside of petals; a good variety.

Tea Roses (Continued).

Vicomtesse de Cazes, large, very double; yellowish copper colored; extra fine.

White Bon Silene, a sport of the well-known Bon Silene, but of an ivory-white color; good bloomer.

White Tea, a good, constant bloomer for the South; pure white.

Yellow Tea, like White Tea, best for South only; pale, golden-yellow; beautiful large, pointed buds.

The Bride. Who does not know the beautiful Cath. Mermet? and this a pure white one

W. F. Bennett. a truly magnificent rose, truly called the ever-blooming Jaqueminot. A splendid rose for forcing and cutting, but if grown out-doors it is of little account, as same opens too quick and is not double enough.

BOURBON ROSES.

This group of roses is hardier than the Teas, but needs slight protection. They deserve to be highly appreciated, through their numberless flowers, the purity of the different colors, which are very fine.

Abbe Girardin, large, full, well-formed; color soft, satiny rose; deeper in center and as florescent as La France. 20c.

Appoline, very vigorous grower; very large and double; of fine, rosy-carmine color; large cupped flowers.

Bourbon Queen, a splendid rose; large, fine form; very double, full and sweet; color clear rose, edged white.

Comtesse de Barbataine, flesh color, changing to white; beautiful cup-shaped flowers.

Duchesse de Thuringe, beautiful silver-rose or pure white shaded with amber; finely cupped form; a lovely rose.

Empress Eugenie, one of the best blooming roses we have; light, soft, rose color; very perfect form and very double; shape of Souvenir de Malmaison.

George Peabody, dark violet-crimson; large, finely-cupped flowers, very sweet.

Hermosa, the best and hardiest of all our old sorts; always in bloom; fine, bright rose color.

Jules Cæsar, dark cherry-red; a free, constant bloomer.

Jules Jurgensen, rose magenta, velvety carmine with slaty reflex in interior; flowers large and well-formed.

Joseph Gourdon, an extra good sort, of dark, rosy-flesh color.

Louise Margottin, double, bright, clear, satin-rose; fine shape.

Louise Odier, another old variety of great merit; very free bloomer; bright rose color.

La Reine des Iles Bourbon, fine salmon rose; a first-class variety.

M'me F. de la Roquette, currant-red; fine and distinct large flowers. 20c.

Modele of Perfection, fine satiny rose; flowers medium, excellent form. 20c.

Mrs. Bosanquet, very good and distinct sort, of pale flesh color; very hardy and an excellent bloomer.

Malmaison Red, a sport of Malmaison of velvet-red color; very fine. 20c.

Queen of Bedders, a very free bloomer; color dark kermesine; growth moderate. 20c.

Sir Joseph Paxton, very distinct variety, dark, large, crimson flowers; constant bloomer.

Souvenir de la Malmaison This is undoubtedly the finest and most perfect rose of this class;

Bourbon Roses (Continued).

hardy, free blooming; of beautiful, clear flesh color, edges blush; superb.

NOISETTE ROSES.

Formerly hardy, they have been hybridized with Tea-roses so as to lose much of their former character. They have been much improved in color and form, and to obtain large, perfect flowers, ought to be trimmed well every spring, and some during early summer. In the Southern States, or cultivated under glass in colder climes, they are magnificent climbers. They all need protection.

America, creamy-yellow, bronze-shaded; good bloomer.

Aime Vibert, one of the hardiest and best bloomers; pure white, well-formed flowers, in large clusters.

Aime Vibert, Climbing, same as above, but will run ten feet or more.

Belle Lyonnaise, deep canary-yellow, changing to light yellow, tinted with salmon-rose; very full and sweet; a first-class variety. 15c.

Beauty de l'Europe, one of the Gloire de Dijon type of Teas; flowers large, with form of Centifolia; dark yellow, reverse of petals copper-yellow.

Celine Forestier, pale yellow, deeper toward the center; an excellent rose.

Cloth of Gold, or Chromatelle, deep yellow center, with sulphur edges; a splendid rose, but a shy bloomer. Do not prune too short.

Claire Carnot, bright coppery yellow; very distinct color; free grower.

Euphrosyne, pale yellow, orange tinge, resembling Gloire de Dijon; a free bloomer and good grower; very good sort.

Gloire de Dijon, buff, with orange center, very large and double, handsome foliage and vigorous, free-blooming habit; the most useful of all the Tea-scented roses. Too much can not be said in its praise.

James Sprunt (Climbing Agrippina), a rich, dark crimson; very strong grower.

Larmarque, purest white; a splendid climber under glass, and the freest and finest for winter blooming; has to be trimmed and trained well

Madame Alfred Carriere. We know no better place than this for a rose of Hybrid origin. It has long, rambling branches, and blooms as freely as most of the Teas, although perfectly hardy and resembling the Hybrid Perpetual roses in the globular form of its large flowers. Flesh white, with a slight shade of salmon.

Maria Lavelley. Habit extra vigorous. Flowers large, semi-double, of fine form; color, vivid rose, shaded and lined with white.

M'lle Annette Scant. Clear citron-yellow; a rose of the Gloire de Dijon order. Very free blooming and a rampant grower.

M'lle Alexandrine Bruell. Flowers of lemon white, changing to pure white and opening well. This may be classed as a free flowering white Gloire de Dijon. 25c

Ophirie, reddish copper, medium size; full; the plants have to have age in order to bloom well.

Princess Stephanie. A seedling of Glorie de Dijon; of a climbing habit, with dark-green foliage. Flowers moderate in size; salmon-yellow, with an orange shade. 20c.

Noisette Roses (Continued).

Reine Marie Henriette A seedling of the Glorie de Dijon, with bright red flowers; large, full, and scented. In shape and size it is certainly very distinct and beautiful; color bright cherry-red. A strong, vigorous grower. This rose succeeds well all over the South.

Reine Olga de Wurtemberg. Large, full, and fine; color rosy flesh, delicately tinged with salmon-yellow petals margined with crimson; blooms in clusters.

Reve d'Or (Climbing Saffrano), copper-yellow, large and free; fine climber.

Setina (Climbing Hermosa), flowers same as the well-known Hermosa.

Solfatere, sulphur-yellow; large, double, and fragrant.

Triomphe de Rennes. Sulphur-yellow; very large and full. A fine Noisette.

Waltham Climbers—1, 2, and 3. Three seedlings from Gloire de Dijon, raised by Wm. Paul and invaluable, as they are crimson-flowering, ever-blooming roses. They are said to bloom freely throughout the season. Number 1 is bright crimson rose, reverse of petals purplish rose. Number 2 is still darker and remarkable for its sweetness. Number 3 is yet more richly crimson and a finely formed flower. All are full, double, and handsome roses. 15c. each.

Washington (Lady Washington), pure white; enormous clusters; freely produced till hard frost.

W. A. Richardson, a new shade of orange-yellow; strong growers and good bloomers.

BENGAL, or CHINA ROSES.

This group is adapted specially for massing in beds, for ribbon-beds, rose-hedges, etc. Though not equal in size and beauty to the Teas and Noisettes, they are unequaled for pot-culture, as they are most profuse bloomers. They need less protection than the Teas.

Agrippina, or Cramoisie Superior, rich, velvety crimson, moderately double; fine in bud; an excellent bedding variety; one of the best.

Abbe Mailand, dark rosy-crimson; very free and desirable.

Archduke Charles. This is a splendid old sort; rose-color, which gradually changes to crimson.

Ducher, pure white; good form; medium size; free bloomer.

Five-Colored, various colors, striped and mottled.

Green Rose (Viridiflora), flowers quite double; pure, deep green; a great curiosity and good variety.

Laurentia Rose. Fairy rose; a very interesting miniature rose, about the size of a ten-cent piece; very neat. Same variety in dark red.

Louis Philip, rich, dark, velvety crimson; profuse bloomer; full and double; a splendid bedding rose.

M'me Jean Sisley. A free-growing, free-flowering rose of merit. This is a great acquisition for bedding purposes, and a rose that will please. It is full and double, and pure white. Fine for cemetery planting.

Nemesis. Rich, velvety crimson, the darkest roses in the class; flowers large and freely produced.

Otaheite, or Sanguinea, darkest crimson; semi-double; freest bloomer; very compact growth; excellent for massing.

Pink Daily, clear bright pink; medium size; full and double; fragrant; constant bloomer; a good sort.

Queen's Scarlet; improvement in bright colors.

Queen of France, clear bright red; always in bloom.

White Daily, one of the oldest white roses; very hardy and constant bloomer.

HYBRID TEA ROSES.

The old Hybrid Tea Rose, La France, gives us an idea of the beautiful colors and exquisite fragrance, which are united in this new class of roses, which is obtained by crossing the Tea Roses with the Hybrid Perpetual. A good many of the new sorts now in commerce are of no use whatever for out- or in-door culture, and we limit our list to such sorts as we know will give satisfaction. Prices are attached to each sort for 2½ and 4-inch pot-plants.

American Beauty (Hybrid Tea). A truthful description of this rose would sound like exaggeration. It grows as vigorously as a Hybrid Perpetual, and blooms as freely as the Hybrid Teas, while the flowers are of great size, boldly carried and most deliciously fragrant. Rich, high rose color. Globular. Hardy. 15 cents.

Antoine Mermet. Very large, full, and of fine shape; color a rich carmine pink, slightly shaded with white; of good growth, with nice bright foliage. Of the La France type. Good. 20 cents.

Beauty of Stapleford, deep rosy red, with dark purplish rose center; one of the best of this class. 20 to 40 cents each.

Countess of Pembroke, of vigorous growth; fine form, full, and highly scented, satiny-rose of a novel tint. 20 to 40 cents each.

Captain Christy, delicate flesh color, deeper toward the center; very fine. 20 to 40 cents.

Chestnut Hybrid, cherry carmine, with a shade of violet; large and full. 20 to 40 cents.

Duke of Connaught, bright crimson; large and full flowers. We can only recommend this very fine rose to persons being very successful with rose growing, as this fine sort is unfortunately of weak growth. 25 to 50 cents.

Earl of Pembroke, color very soft, velvety-crimson, enlivened on margin of the petals with bright red; quite distinct, and good for all purposes. 50 cents.

Heinrich Schultheiss, very vigorous; flowers exceedingly large, of first-rate form and very full; color very delicate pinkish-rose.

La France, the oldest and best of the hybrid Teas. Delicate silvery rose; very large, full globular form; extra fine. Price, 10, 25, and 50 cents.

Lady Mary Fitzwilliam, flowers exceedingly large, of globular form and full; bright, delicate flesh color; exceedingly chaste and fine.

M'me Alexander Pernaix, deep pink shaded salmon, large, full, very fine.

Michael Saunders, bronzed rose; a distinct color; large, beautiful flower. 20 to 40 cents.

Pierre Guillot, bright cherry red flowers, full and large; very free blooming; of good habit; next to La France the best for general culture. 25 cents.

Hybrid Tea Roses (Continued).

Triumph D'Angers, bright, fiery red, changing to darkest velvety crimson, tinged with purple; large, full flowers, very double and fragrant.

POLYANTHA ROSES.

This is a new dwarf class with peculiar, distinct growth and form of flowers. One shoot bears from six to eight flowers in pinnacle shape. They seem to be perfectly hardy, being natives from Japan.

Anna Marie de Montravel. Pure white flowers, about an inch and a half in diameter, and forming beautiful, slender buds.

Little Pet, of about the same size as the above, but with shorter petals and a rather more double flower. As it opens the bud appears of a blush color, but it is soon seen that this shading is only upon the back of the outer row of petals, the other portion of the rose being white. Compact in growth and very free.

M'lle Cecilia Brunner, salmon, heavily shaded rose; sweet and beautiful.

Mignonnette, a good grower, flowers exceeding small, borne in clusters of twenty to thirty flowers; color delicate rose passing to white.

Miniature, very dwarf variety; white, slightly tinged pearly pink. 20 cents.

New Climbing Polyantha, Max Singer. A very strong, rampant growing rose; will be useful in the South for covering verandas and pillars; flowers in clusters like the dwarf varieties; color like the Hermosa, bright pink. Price, 20 cents.

Paquerette, pure white; flowers somewhat smaller than Migonnette, but more perfect.

Perle d'Or, an orange red Polyantha with yellowish tinge; very free bloomer, has proved an excellent bedder during past summer.

HYBRID PERPETUAL ROSES.

This class is justly popular, as it combines perfect hardiness with the most perfect forms and the most brilliant colors. Most all of them even surpass the Tea Roses in rich perfume. They grow best in a rich, loamy soil. A light cover of straw or hay will protect them, not only from the cold, but from the intense rays of the sun, which, striking the stem while the sap is down, is equally injurious. Our hints about trimming after the flowers fade, in order to procure fresh flowers and growth, apply especially to this class.

Admiral Seymour, dark velvety purple-red; large; extra.

Abbe Girardier, rose with well-defined stripes; large and full; a first-class rose.

Alfred Colomb, brilliant carmine-crimson; very large, full globular form; very sweet, and in every respect a first-class sort.

Anna de Diesbach, a beautiful shade of carmine; extra large; a fine garden rose.

Anton Mouton, a fine free bloomer; hardy flower of large size; full and sweet; brilliant carmine.

Alexander Bachmeteff, a splendid old variety; very hardy; bright crimson; velvety; sweet.

A. K. Williams, carmine-red, changing to magenta; extra fine form.

Antoin Ducher, brilliant crimson, shaded purple; fine form; large and good.

Anna Alexis, pretty rose-color; large and full; very free bloomer.

Admiral Nelson, bright crimson, large and perfect; a splendid rose.

Hybrid Perpetual Roses (Continued),

Auguste Mie, bright pink; large and sweet; good free bloomer.

Annie Saxton, deep rose, flushed with cherry.

Aurora Borealis, rich crimson maroon; globular, full, and sweet; extra.

Abraham Lincoln, flowers very large and full; blackish purple.

Boildieu, bright cherry-red; large like Paul Neyron, and with the fine Centifolia scent.

Boule de Neige, a Hybrid Noisette, pure white; fine and constant bloomer.

Baron de Bonstetten, rich velvety crimson; a very fine sort.

Baronne Prevost, pure rose-color; free bloomer; flowers large, flat, very full.

Baroness Rothschild, bright pink; cupped form, symmetrical shape; very distinct. 25 cents and $1.00.

Beauty of Waltham, rosy-crimson; good.

Baronne de Maynard, pure white, edge of petals tinged pink; fine.

Belle de Normandy, beautiful clear rose, shaded and clouded rosy carmine; large and sweet.

Baron A. de Rothschild, fine, soft, velvety-scarlet, changing to crimson purple.

Clara Cochet, H. P. Vigorous; flowers very large, slightly globular full; petals very large; color fine, clear rose, brighter in the center; the edge of the petals covered with a diamond gloss. 25 cents.

Capt. Christy, a new shade; delicate flesh color, deepening in the center.

Caroline de Sansal, pale flesh color, deepening toward the center; a lovely rose.

Centifolia Rosea, bright rose; very large and fine; circular, shelled form.

Charles Lefebre, very velvety and rich crimson; large, beautifully formed; splendid sort.

Charles Margottin, reddish crimson; large, full, and fine.

Charles Verdier, light salmon-rose.

Cardinal Patrizii, darkest velvety crimson shaded purple.

Countess of Oxford, a magnificent rose of immense size; soft rosy-carmine, changing to silver-rose, fine form; free bloomer.

Count Bismarck, rich, dark, purplish-scarlet, changing to reddish-purple; fine.

Crimson Bedder, scarlet and crimson; very effective and lasting; clean, glossy foliage; blooms freely from June to November. 25c.

Christian Puttner, vivid purplish-red, shaded crimson; large free bloomer; vigorous.

Coquette des Alpes, another Hybrid Noisette, white, occasionally marked light pink.

Coquette des Blanches, pure white, best of the Hybrid Noisettes.

Dr. Hogg, very distinct deep violet, shaded purple; fine.

Dr. Andry, rich, rosy-crimson; large flowers, fine, smooth petals; superb.

Duke of Edinburgh, bright crimson; moderately full; fine, cupped form; a good rose.

Dingee Conard, a rare shade of brilliant scarlet; blooms in clusters.

Duke de Chartres, brilliant rose; very double, large and fine, strong grower and good bloomer.

Duchess de Sutherland, very large, double and sweet; one of the best; pale pink.

Duke of Wellington, beautiful velvety red, shaded scarlet-crimson; very fine.

Hybrid Perpetual Roses (Continued).

Duchess de Morny, bright, purplish-crimson; fine, full form; a constant bloomer.

Duke Charles de Montault, extra dark; a splendid bloomer; brilliant velvety carmine.

Duke of Teck, bright crimson scarlet; fine.

Duke of Albany, very large, perfect double, bright carmine, changing to velvety black; very free autumn bloomer. 25 cents.

Ernst Prince, very vigorous; flowers very large; light red, deeper in center; fine bloomer. 25 cents.

Empress of India, dark, brownish-crimson; very double, finely-shaped flower; very distinct. 20 cents.

Emperor of Morocco, an intensely dark rose of velvety maroon

Elizabeth Vigneron, bright, rosy-pink, large and sweet.

Exposition de Brie, reddish crimson, large, full, and of exquisite form.

Eugene Verdier, rich, dark, violet-purple; very large, free bloomer.

Fisher Holmes, reddish scarlet, shaded deep-crimson; a magnificent rose.

THE ENGLISH SWEET-BRIER, or EGLANTINE.
This is the well-known rose of the English gardens and hedge-rows. The delicious fragrance of the leaves makes it familiar to all who have been in Europe. Price, 10 cents each; $1 per dozen; for hedging, $10 per 100. Large plants, double price.

Rosa rugosa, White or Red, a Japan variety, with distinct, elegant foliage, single flowers, followed by white or red apples respectively. 20 cents, either color.

STANDARD ROSES.

These are about 4 to 5 feet high; flowers can be seen close to the eye, and fragrance inhaled without stooping. We had only the finest varieties grafted on the standards. All are hardy, but if covered during winter it will be so much better, and no risk is run.

We can supply the following colors:

Rosy Pink, Carmine, Silvery White, Clear Red, Rose White, Pinkish, Crimson, Blush. Each, $1.25; per dozen, $12.

Standard Marechal Neils. Extra large, each $1.50. Half Standards, 2 feet high, $1 each.

Weeping Roses.—These are Noisette and Climbing Tea varieties grafted on stems four to six feet in height, and are especially adapted for cemetery planting or isolated on the lawn, where the branches can droop freely to all sides. Sorts like Gloire de Dijon, Lamarque, Marechal Neil, etc., etc., thus grafted will bloom the entire season. Price, four feet high, $1.50; six feet high, $2.00 each.

THE PURITAN. (See Novelty List.)

GERANIUMS.

GERANIUMS (Double).

Next to the Rose the Geraniums are justly the most popular plants, owing to their great and varied usefulness, adapting themselves to all soils and climates. We give below a list of fifty double and semi-double varieties of geraniums which we selected out of several hundred sorts with great care, and can conscientiously recommend same as the cream of all existing sorts of all existing shades. They will be found to stand our Southern hot and dry summers well, and rival, even surpass, the best single-bedding geraniums in brilliancy and profusion of bloom.

Mrs. Pollock (Golden Tricolor). As an ornament for the parlor or conservatory nothing yet excels this beautiful plant. The flowers are dark scarlet; the ground color, or rather the disk of the leaf, is green; next comes a zone of bronze-crimson, margined scarlet; then a belt of lighter green, the margin of the leaves being a clear yellow. Price $1.50 per dozen, or 15 cents each.

Queen of Tricolors, extra fine markings, which it is difficult to describe; a splendid novelty. 20 cents.

Variegated Rose-scented.

Lady Plymouth, silver variegated Rose Geranium; very distinct. 20 cents.

Sun-ray, zone of bright carmine, outer belt a rich golden yellow and intersected with flame. Scarlet tints on broken patches of dark brown. 20 cents.

MARANTA ZEBRINA.

CARNATIONS—Ever-blooming.

The growing popularity of these thankful sweet-scented flowers, the great improvements made in their colors, as well as their profuse-blooming habit all the year round, induce us to depart from our formal rule and give this "Gem of Flowers a special, separate place in our catalogue. The variety of colors is greater than in any other fine flower, and the cultivation is of the easiest.

MODE OF CULTURE.—Young plants are planted in open ground here as early as May 1, as light frosts do not injure them; or if for pot-culture a repeated shifting from time to time is advisable and preferable to planting young plants in very large pots at once. Pinch the top-shoots once or twice during early summer only to encourage a busy growth. The soil, common loam, should be enriched with a little leaf-mold, well-rotted cow manure or bone dust. About October 1 lift the plants from open ground with a full ball and pot. Keep cool and shady for first week, till well established, then remove to a sunny, airy place, and let temperature never exceed sixty degrees. They enjoy a moist and cool atmosphere.

	Each.
Price, mailing plants per dozen, $1	10
Price, young showy plants, in 3-inch pots, per dozen, $1.50	20
Price, strong-blooming plants, in 4-inch pots, pots, per dozen, $2.50	30

Price, extra large plants, 50c. to $1.00 each.

CHRYSANTHEMUMS.

The remarkable improvements made yearly with this fashionable flower render it more and more worthy to be called "The Queen of Autumn." Formerly of a stiff and cold bearing and color, it now has the most gracefully elegant forms and most pleasing tints of colors. We have made Chrysanthemums one of our leading specialties, and we hope to be able to show the flower-loving public by next November what nature, combined with practical culture, has produced in this gorgeous fall flower. We herewith invite our numerous customers to a great Chrysanthemum Exhibition, the date of which we will give in our Fall Catalogue, and we hope that all Louisville Florists will join us in making it an affair worthy of Louisville's fair name.

CULTURE.—Don't expect large, perfect flowers in poor soil, from dried-up, withering plants. Chrysanthemums must be fed, and fed copiously with water and liquid manure, or at least, water and mulching with rotten cow manure, etc. Small plants planted in open ground by April or May, will soon start to grow vigorously. As soon as six inches high pinch off the top and repeat this once or twice more up to August 1, not later, as buds begin to form after that date. South of Kentucky early frosts will not injure the flowers in September and October, but here in Kentucky to get the full benefit, these plants have to be lifted and potted after some copious waterings the day before. The plants will soon recover after being kept in a sheltered, shady place for a few days. After that time give all the sunshine and air you can, and observe one thing, never let your plants wilt, and if practicable add some liquid manure, and hundreds of large, perfect flowers will repay your trouble.

CHRYSANTHEMUMS (Continued).

PRICE.—We offer 15 young plants from below-named varieties for $1.00; 10 cents each. Large plants in September or October, $2 to $5 per doz., according to size, 30 to 50 cents each. We offer the set of 60 Japanese sorts for $3.00

FUCHSIAS.

If properly cultivated, and a suitable place to be had where the plants are protected from the midday sun, few flowers can equal the Fuchsias in gracefulness and beautiful, showy flowers, perpetually coming on. The secret of success with Fuchsias is to keep the plants properly watered and nourished to stimulate fresh, continuous growth, and consequently flowery. This satisfactory result requires repeated repotting if plants are kept in pots, or if planted out mulching with cow-manure and watering.

PRICES.—We offer 15 plants by mail, prepaid, for $1.00; each, 10 cents; or larger, grown in 3½-inch pots, per express only, per dozen, $1.00; or larger, grown in 4-inch pots, per express only, per dozen, $1.50, or 15 cents each; extra large plants, 25 to 50 cents each.

CRAPE MYRTLE.

Lagerstroemea Indica; a favorite tub-plant in this latitude, where it is not hardy enough to preserve its old wood during winter, like in the South, where it is perfectly hardy. Here it dies down to the root, but comes up again in the spring, and therefore takes a long time before it blooms in summer. The best way, therefore, is to keep the plants in the cellar over winter, and transplant in rich soil early in spring, watering freely with water, soapsuds, etc., during summer, and no flower will produce a better effect. The contrast in color of the four distinct varieties we offer is very pleasing.

CRAPE MYRTLE (Continued). Each

Purpurea, or Purple; a blush purple.

Rosea; fine pink or rose-colored; freest bloomer.

Alba, or White; purest white—nothing exceeds its beauty. We introduced this variety ten years ago into commerce, and it has attained widespread popularity all over the world since that time.

HIBISCUS SINENSIS.

This plant rivals the Geranium in popularity, and it certainly well deserves it. All of the below-named kinds are good growers, and bloom all summer, either bedded out or as tub-plants. A very good way to make them bloom freely and to facilitate the lifting in fall is to transplant each plant into a pot two or three sizes larger than the one it has been grown in, then plunge the pot altogether into the ground, the soil to cover the surface two inches. Sufficient nourishment can be found by the top and bottom roots to make the plant bloom well without starting it to grow too vigorously, and therefore, to bloom less. Then in the fall the plant can be lifted without injury, and being transplanted again, and kept in a shady, cool place until fully recovered, it will, in a warm, sunny window, in a warm room, bloom constantly. We offer small plants ready to bloom, at $1.50 per dozen; larger plants, in 4-inch pots, $2.50 per dozen; small plants, ready to bloom..... 15

Extra large plants. ..... 50 cents to 1 00

THE Summer Bulbs are a most useful and brilliant class of flowers, and becoming every year more popular, both among florists and amateurs every where. The Gladiolus now takes rank at the very head of this list. The Summer Bulbs are tender, and therefore destroyed by freezing, and must not be planted until frost is over in the spring. In the autumn they must be taken up before hard frost and kept in the cellar or some other place where it does not freeze. They are easily preserved in good condition, and will richly repay for the little care required in their treatment. Here they can be planted in April and May.

AMARYLLIS. Each.

Nothing can compare with a blooming plant of the Hybrid varieties. The engraving shows a part of a flowering stock of one. They grow vigorously, are good for forcing, and make an excellent pot-plant. Plant the bulb in a good-sized pot. It will throw up a stem about eighteen inches in height, bearing from eight to fifteen flowers each. The bulbs are always good, and increase in value. Blooms several times in pots. Leaves are very ornamental.

DAHLIAS.

The Dahlia is one of the oldest garden flowers in existence, and retains its great popularity. The roots ought to be planted as soon as the ground becomes warm, and covered about three inches. It is an autumn flower, and attains its beauty in the fall months when the weather becomes cool. After flowering, and before hard frost, take up the roots, dry them, remove the tops, and keep in the cellar until spring, when they can be divided and replanted. The Show Dahlias are from three to four feet high. The Dwarf or Bedding Dahlias, about twenty inches, and the Pompon Dahlias about three feet, making a compact growth. Our collection of Dahlias embraces but the best varieties.

SINGLE DAHLIAS.

Single-blooming Dahlias have become very fashionable, owing to the value attached to the cut blooms, their light, butterfly-like forms giving the flower a special grace. The brilliant red is the most showy. 15

DAHLIA JUAREZII—Cactus Dahlia.

Its blossoms are rich crimson, and resemble the Scarlet Cereus. Height three feet, very showy; flowers of very striking appearance, very unlike other Dahlias. Called Glare of the Garden on account of its bright, glowing color 20

Dahlia. Glare of the Garden. A grand variety of the loose-flowered or flat-petaled type, by far the most brilliant scarlet of

Dahlia Juarezii (Continued). Each

any Dahlia we cultivate. Where a brilliant show or light scarlet is wanted in the fall, this is the finest-bedding plant imaginable 20

White Cactus Dahlia, Constance. One of the most useful of Dahlias. Its pure white, elegant-shaped flowers render it valuable for wreaths, crosses, church decoration, or any other use for which good-sized flowers are wanted; it is a good grower and a very free bloomer, and should be in every collection of Dahlias..... 25

GLADIOLUS.

The Gladiolus is the finest and most showy of our summer bulbs, with tall spikes of flowers, some two or more feet in height. The flowers are of almost every desirable color. Their culture is simple. Set the bulbs from eight to ten inches apart, and cover about three inches. If set in rows, make the rows one foot apart. Plant at different times, from middle of April until the middle of June, and you will have a succession of bloom. Keep the soil mellow and give the spike a support. The Gladiolus does well everywhere; we never hear a complaint; almost every kind of soil suits it. It is a most beautiful decorative plant, an ornament to the dining-room and parlor. The cut flowers will last at least a week in water. The bulbs are taken up in the fall and kept over winter in a dry cellar, protected from frost.

COLLECTIONS OF GLADIOLUS.

Asparagus.

The preparation of the Asparagus-bed should be made with care, from the fact that it is a permanent crop which ought to yield well for twenty-five years. The ground must be thoroughly trained; light sandy loam is preferable. Work in about six inches of manure, two feet deep, as the roots of the plant will reach that depth in a few years. The crowns of the plants should be placed at least three and a half inches below the surface. The surface of the bed should have a top-dressing of three fourths inches of rough stable manure every fall. Salt is also a good manure. Plant in rows three feet apart, and set the plants nine inches apart, and one foot deep. Good large roots, $1.00 per hundred; or $6.00 per thousand, by express.

A FEW REMARKS TO PURCHASERS.

The Seed and Plant Season continues only for several months in spring and all orders will be filled in rotation as received. Please forward your orders in time. This will generally facilitate operations and insure greater satisfaction. Orders are filled carefully, but sometimes a mistake may occur, and we earnestly desire our customers to inform us of the fact without delay.

PLEASE READ THIS.

Postage on Seeds.—As we do a large local trade, in justice to those of our customers who buy at our counters, we base prices in this list on the purchaser adding postage when buying Vegetable Seed in bulk to be sent by mail. The postage we exact is this: that when Seeds are ordered to be mailed in quantities of one fourth pound and upward, postage must be added to Catalogue prices at the rate of 16 cents per pound. As postage for Beans and Peas, please add 30 cents per quart, and to Corn 20 cents per quart to Catalogue prices. But when ordered by *packet* or *ounce*, either *Vegetable* or *Flower Seeds* will be sent by mail, at Catalogue prices, without extra charge.

By Express.—Vegetable Seeds at prices quoted and *in* quantity, are all sent by express at the cost of the purchaser. Small packages sent free by mail. No charges made for packing.

The Safe Arrival of Packages Guaranteed.—We guarantee the safe arrival of all packages in good condition, in every case.

C. O. D.—If parties wish their goods sent C. O. D. we will do so, although it is an unnecessary expense to the purchaser.

What We Ask of Our Customers.—How to Send Money.—Send money by *post-office money-order*, postal note, draft on New York in a registered letter, or by express money-order, or cash by express

Do Not Forget to Write Your Name, Post-office, and State.—You will please use the Order-sheet, and fill it out properly. Always give full directions. (See remarks on Order-sheet.)

Pansy, Roemer's Giant.

Tuberose Pearl.

Reseda, Giant White.

Passiflora.

IN this department we have every variety of seeds that flower the same season the seed is sown. The seeds are sown in spring, the plants arrive at maturity in early summer: bud, blossom, ripen their seed, and die in the autumn. For best and gayest flowers grown from seed we mainly depend upon this department. The seed is offered at such price as to be within the reach of all, is of the best quality, and will if properly treated give general satisfaction. Seeds of Climbers, Everlastings, and Grasses, Vegetable Seeds, and Plants will be found under their respective heads. We recommend only such varieties as we have found to thrive in this country.

BALSAM (Impatiens), (Lady's-Slipper) (*Balsaminaceæ*)

One of the most popular and one of the most beautiful of our annuals; but a rich soil and good culture are needed to bring it to perfection. With good care, very few flowers will afford more satisfaction. Sow in a frame or in a sheltered bed in the garden in the spring as soon as the weather is warm. Transplant when the second leaves have made a little growth. If left where sown they will only be semi-double. Set the plants ten or twelve inches apart, and when the side branches appear pinch all off but three or four, and pinch out the center shoot. Those left will grow strong, and the flowers will not be concealed by the foliage, as in the case when the plant is left unpruned. A very good way is to keep all the side shoots pinched off, leaving only the leading one; this will grow two or three feet in height and be a perfect wreath of flowers. Balsams grow in our climate to perfection, and deserve to be cultivated generally. Also very valuable for greenhouse culture; equal to a carnation.

Before submitting our list of Vegetable Seeds to the public, it is only necessary to state that our stock has been selected with great care from the best sources. We send nothing out but what we know will vegetate, and is true to the name

Hundreds of new varieties of Vegetables have been added the last few years, but we add only the best, after testing same. Only standard varieties are kept by us.

The safe arrival of all Seeds is also guaranteed.

POSTAGE ON SEEDS —We do a large city trade, and in justice to those of our customers who buy at our store, we base prices in this list *without* postage paid. The purchaser will kindly *add postage* when buying seed in bulk to be sent by mail. Postage to be added at the **rate of 16 cents for every pound of seed.** For postage on Peas and Beans, please **add 30 cents per quart; corn, 20 cents per quart, to Catalogue prices.** Ounce packages or packets will be mailed free at quoted prices, without charge,

We have left off full description of each kind of Vegetable, as most every one knows how to grow garden vegetables. Good, rich soil and culture will bring any kind of vegetables to perfection. Poor soil and poor cultivation will produce a poor crop.

Novelties

AND

Rare Plants

Mr. John Laing.

Below we have the pleasure to offer the newest and most valuable plants, gathered by us from all parts of the world, and selected with greatest care.

NEW ROSES, Each.

The cream of over fifty new sorts put in commerce last fall. Strong 3-inch pot plants, except where prized, $3 50 per doz. 35

Chateau des Bergeries (Tea), light canary yellow, center darker, large globular flowers of fine shape.

Duchesse Braganie (Tea), light canary-yellow, full, perfect flowers, opening well; vigorous.

Dr. Grill (Tea), medium size, vivid yellow, center light orange, shaded pink; exquisite fragrance.

Luciole (Tea), very bright carmine rose, tinted and shaded saffron, base coppery, back of petals bronze, large and full, finely scented, good shape, long buds..... 50

Lady Zoe Brougham (Tea), Brilliant fawny yellow, darker on edges, large, full, imbricated, long buds.

NEW ROSES (Contined). Each

M'me Etienne (Tea), rosy pink on edge of petals, shading to light rose; large, finely-shaped buds; very sweet and fragrant.

M'me Hon. Defresne (Tea), beautiful dark citron-yellow, with coppery reflex, charming as bud as well as open flower; strong grower, free bloomer.

M'me Scipion Cochet (Tea), in bud yellowish-pink, expanded fleshy rose, center yellowish; v ry free bloomer.

M'me Schwal er (Hybrid Tea), of great freedom of bloom, color rosy flesh, paler at base, globular to cup-shaped, of bushy growth, and very free bloomer; has the fragrance of La France. A No. 1 rose..... 50

M'me C. Perrean (Tea), bright rose, a seedling of Souvenir d'un Ami; more vigorous and finer flower; extra.

Mrs. John Laing (Hybrid Perpetual), excellent for early blooming, of exquisite satin-pink color; vigorous grower, deliciously fragrant 1 00

Namenlose Schœne (Tea), (Namless Beauty), the purest-blooming white bedding rose; excellent for massing.

Princesse Hohenzollern (Tea), dazzling red, large, fine shape; a seedling of Papa Gontier; extra.

Puritan (Hybrid Tea), pure white, of large and perfectly symmetrical form; very sweet.

Princesse Beatrice (Tea), vigorous, erect growth; flowers come on long, stiff stems; outside petals pale yellow, center rich golden, edged light rose.

Vicomtesse Folkestone (Hybrid Tea), exquisite in form and carriage; color white on salmon shading.

Primrose Dame (Tea), very double, fine in bud; not large, but chaste and exquisite; color outer petals light canary with a rosy-salmon center; exceedingly free blooming. Per dozen, $2.00..... 25

Souvenir Gabriel Drevet, a crimson Tea, of rare merits; it is shaded with yellow, and excels in many respects.

Souvenir de Victor Hugo, bright China rose, yellow center, ends of petals suffused carmine; a rose of decided merit.

Below-named three German novelties can be had April 1, in strong, one-year-old plants.

Princesse Victoria (Bourbon), a yellow sport of the famous Souvenir de la Malmaison; outside petals creamy white, inside sulphur yellow, otherwise identical with its parent. A splendid and welcome novelty. Price.....5 00

Bengal Purpur von Weilburg, identical with Famosa, but only variety of all existing roses, with deep pourpre-carmine flowers; excellent for groups or market sort. Price..... 75

Rosa Rugosa Purpurea Plena, Kaiserin des Nordens, a hardy rose of great merit, on account of its beautiful, distinct foliage as well as its new double pourpre-violet flowers. Price..... 50

Miscellaneous New Plants.

(In Alphabetical Order.)

Antignon Leptophus. A lovely new desirable climber from Central Mexico, for the garden in summer, or conservatory in winter; foliage light green, delicately veined, producing dark rose-colored flowers in racemes two feet long, like clusters of grapes; plant of quick growth. price, $2.50 per dozen..... 25

Anthemis Coronaria, fl. pl. (Double Golden Marguerite). This is the most valuable new plant we have had in years, clear golden yellow; it blooms without cessation the entire season; in winter as well as in summer, is ever covered with bloom. It is not only an excellent thing for cut flowers, but it will make a grand plant to use in massing or ribbon line. Per dozen, $2.00..... 25

Alyssum (Double Tom Thumb). The Single Tom Thumb Alyssum, which we were the first to introduce several years ago, has proved to be the best of all Alyssums for either ribbon-lines or pot-plants. This new variety has the same dwarf habit as the single, but its trusses are much longer and the florets double. Per dozen, $2.00. 25

Abutilon Triumphant, most profuse bloomer, brilliant red with maroon nerves... .. 50

Max, fiery blood-red; extra.. 50

BIGNONIA

Magnifica, beautifully variegated foliage, greenhouse climber. 25

Listerii, new cut-leaved variety of deep olive green, colored with silvery luster; spotted gray. 35

Fire King, distinct and beautiful, the stems when young are of a brilliant fire-red; flowery rose 20

Alba Picta, very ornamental, long, ear-shaped medium-sized leaves of darkest green; silvery spots..... 20

Semperflorens Gigantea Carminea, extra fine in foliage, and by its beautiful carmine-red flowers (see cut) 25

Rex Mad. Treyve, of upright growth, with beautiful foliage 25

Rex Abel Carriere, also of upright growth with fine silvery foliage..... 25

New blooming Gloire de Sceaux, one of the finest winter-blooming sorts, with heart-shaped metallic-shining leaves and fiery rosy-red flowers..... 35

New blooming Hybrida Coccinea. A lovely sort, similar to Weltoniensis in habit, but a more constant bloomer and flowers fiery carmine..... 35

BEGONIAS (Continued). Each

New Foliage (Olbia). A splendid novelty from Brazil, different from any others existing; dark bronze-green foliage, ornamented on upper side with silvery white, on lower side with red dots; extra 50

BEAUMERIA.

Argentea, fine foliage dark green, overlaid silver 25

BOUVARDIA.

Hogarthii fl. pl., finest double red Bouvardia, fiery brick-red 50

Flavescus, fl. pl., double yellow 50

BROWALLIA.

Purpurea, deep violet-blue; flowers freely produced 20

CANNA.

Large-flowering. Who does not like the beautiful Canna Ehmanii? We imported twelve distinct varieties of new, large flowering sorts which even surpass C. Ehmanii in brilliancy of color and fine foliage; each sort a separate color... 50

CACTUS DAHLIAS.

New colors; six new distinct colors from D. Juarezii; extra 50

CARNATIONS.

New Golden Pride of Penhurst, rich golden yellow; has created a sensation in English circles 35

New Scarlet, Robt. Craig, most prolific, on large stems; the best of its color of the day 25

Columbia, one of the finest variegated sorts; color delicate flesh, shaded lemon; rayed and dashed scarlet 25

Black Knight, best dark ever offered 25

Silver Spray, best and most profitable white Carnation yet sent out 25

CONFEDERATE ROSE.

A new greenhouse shrub; flowers changing from white to red; fine 25

Daisy Belle of Springfield, large, perfect double white 15

Claytonia Virginica, tuberous-rooted plant, with lovely rose-colored flowers. 25

Eulalia Gracillima Univittata, beautiful ornamental grass with silvery-white nerve in center of green leaf; more graceful than the old well-known E. Japonica and Zebrina; *hardy* 50

Impatiens Hawkerii, the superb flowers are very large, of deep crimson color, with a blue tint surrounding the white eye; ready April 1; extra 50

Impatiens Marianne, a neat dwarf plant, silver white and green foliage; excellent for carpet-beds. 25

Ipomea Thompsoniana, thick, fleshy foliage, largest pure white flowers; splendid as a greenhouse climber 50

Gazania Pavonia Major, a fine improvement on the old sort; for sunny places few plants will show to better advantage, flowers very large, Sun-ray like, with peacock eyes 25

HIBISCUS.

Decorus, Lemoine's new sort; extra 25

General Courtegos, finest single scarlet 25

Cardyophyllus, from Texas, resembles an Abutilon in foliage and flowers, which are bright scarlet; profuse bloomer 35

IMPATIENS.

Lucy, a very distinct variety for winter-flowering, flowers of a peculiar tint of bluish rose color 35

Imp. Marianne. (New of 1887). A new dwarf-growing plant; excellent for carpet bedding, ribbon lines, etc.; foliage small, marked silvery-white and green, 25

IBERIS SEMPERVIRENS PLENO.

There can be nothing prettier than the double white Candytuft for edging, beds, borders, rock-work, etc., and is of particular value to the florist. The flowers form a close bouquet of the purest white, and cover the dwarf compact and beautifully rounded bush. The plant is well adapted for pot-culture, but its beauty will be more perfectly developed if planted out in the garden. The flowers appear in great profusion from April until June 1 00

LANTANA.

Ignis, new, high-colored sort, scarlet, changing alternately with yellow 20

Innocence, large flowering; new; white.... 20

MEDINELLA CURTISII.

The flowers are produced in great numbers in terminal and lateral panicled cymes, on flower-stalks of a beautiful coral-red; each flower is about half an inch in diameter, and has an ivory-white, almost undivided, calyx, and a creamy white corolla of five roundish oblong petals, which show to great advantage the central tuft of purple stamens 50

Plumbago Coccinea Superba.

Similar in style to Plumbago Rosea, but producing a long raceme of flowers twelve to fifteen inches in length, and of a bright, satiny carmine color. A grand plant for the warm conservatory, 75

PELARGONIUM.

Chas. Neuner, a seedling, rose and crimson, white bordered; according to our observation showiest of all, and large flowered. Per dozen, $3.00 35

Phormium Tenax Variegata, a finely variegated New Zealand Flax; hardy and showy for house- as well as out-door culture 50

ARISTOLOCHIA ELEGANS.

A new variety of Aristolochia which should be largely grown. Its handsome and elegant flowers are borne on large stalks and have a slightly distended tube, which is suddenly bent upward, the upper part of a rich dark purple color, ornamented throughout with irregular markings of a creamy white, and has a golden yellow eye surrounded by rich, velvety purple. Its blossoms are produced in the greatest profusion, even on small plants, and are entirely free from the objectionable odor peculiar to the genus 50

NEW SHRUBS. Each

Exochorda Grandiflora. This magnificent hardy shrub from North China, with its great racemes of snow-white flowers like single roses, and its rich and long, persistent foliage and elegant habit of growth, is at last accessible to every amateur. Small plants, one-year-old. .. 20

FUCHSIA, "THE CORSAIR."

NOVELTIES OF FLOWER SEEDS

FOR 1888.

Triumph Aster, Deep Scarlet.—This Novelty is undoubtedly the most beautiful and most perfect of all Dwarf Asters, not only concerning the habits of the plants, but also relative to the form and beauty of the flowers. It forms an entirely new class, and attains a height of but 7 to 8 inches. The flowers measure from 2½ to 3 inches across, and are of the most faultless Pæony form, all petals being beautifully incurved; color first scarlet, and when in full bloom it changes to a satiny deep scarlet. Each plant bears from thirty to forty flowers, and exquisite beauty. Especially adapted to pot-culture borders. Each, 35 cents.

Comet Aster, Deep Rose.—Pure deep rose-flowered variety, large and double, similar in shape to a Japanese Chrysanthemum.

Delphinium Hybridum Sulphurum.—This Larkspur attains a height of 3 to 4 feet. The flowers are nearly one inch in diameter, and of a pure yellow-sulphur color; very free blooming; leaves are finely cut, and of a dark-green color. Per packet, 25 cents.

Phlox Drummondii Nana Compacta Punicea Striata.—Splendid new Dwarf variety of a Phlox, with flowers of a rich vermilion, regularly striped with white. Per packet, 25 cents.

Xeranthemum Annum Superbissimum Roseum.—New pink-flowered variety of this popular Everlasting; extra. Per packet, 15 cents.

Ten-week Stock, Deep Blood-red.—Every plant of this new class of Ten-week Stock forms a perfect pyramidal-shaped bouquet; color, beautiful bright blood-red. Plant grows compact. Per package, 20 cents.

Dianthus Caryophyllus fl. pl., "Germania"—Very magnificent Carnation, with pure *Canary yellow* flowers. Plants being of vigorous growth, profusely-crouching habit, the flower-stems attain a height of about two feet; flowers from 2 to 2½ inches across. Per package, 20 cents.

Myosotis Dissitiflora Alba.—A pure white-flowerd new variety of a beautiful Forget-Me-Not. It begins to bloom early in the spring and continues to bloom a long time. 15 cents.

Verbena, Purple Cloak.—This new variety produces large trusses of deep velvety-purple flowers with a clear white center. Extra, 25 cents.

Viola Tricolor, Maxima Victoria.—This new variety produces flowers of a distinct and new bright-red color. It is a fine, deep claret-red, and approaches nearest the color of the blood-red variety of single wall-flower. 50 cents.

Giant Trimardeau, Pansy.—New Giant Pansy, saved only from prize flowers, extra large, superior in colors and shape. Each, 35 cents.

New Large-flowering Cannas.—These new French Cannas do not average over 3 to 4 feet in height. Foliage luxuriant and varied in color; flowers of extra

arge size, and of fine color; some are nearly as large as the Gladiolus, and run through all the shades of orange and yellow, crimson and scarlet. Sow seeds in a hot-bed in January, and plants will be in flower in July; mixed colors. Per packet, 25 cents

Carnations.—We have secured from an eminent German grower his entire crop of Carnation seed; pot grown; finest colors only. Per package, 35 cents.

Pansy, Roemer's Giant.—This is undoubtedly the finest Pansy in cultivation; flowers as large as a silver dollar; extra selected. 50 cents

Ten-week Stocks (Giant Strain)—These are extra large-flowering, double Gilly flowers grown by a German florist; flowers are extra large, spikes very numerous, striking colors, and of a delightful fragrance Per packet, 25 cents.

Verbenas (Mammoth Strain).—Flowers of this variety are about dou le the size of the ordinary Verbena, are brilliant in color, and very free flowering; about ten distinct colors; mixed. Per package, 25 cents

Cosmos.—The Cosmos has proved to be one of our showiest autumn-blooming plants, growing 4 to 6 feet high Sow the seeds early, and plants will begin to bloom in summer; *White*, *Pink*, *Crimson*, etc.; mixed colors. 15 cents

Sweet Peas.—New and distinct varieties of this sweet flower. They are coming more and more in favor, and are worn considerably by ladies as corsage bouquets. Sow 4 inches deep; likes a good, stiff loam, and if moist, plants will continue to bloom all summer.

NEW MAMMOTH VERBENAS.

There are few plants offered this year that we think will give more satisfaction to our customers than the new set of Mammoth Verbenas Novel colors and flowers of unusual size, combined with a vigorous habit, which other sorts sent out by Eastern firms so sadly lack in most instances We offer below fifteen distinct varieties, which were selected with unusual care out of hundreds of real good sorts; every flower will cover a quarter of a dollar. Price, 15 cents each; $1 50 per set of fifteen; six for 75 cents.

Amalia.—Deep rose, white.
Dorothea.—Dark brown; tinted.
Edelweis.—Purest white.
Emilie.—Softest pink.
Esmeralda.—Inside red, changing to white.
Fire-stream.—Deep crimson, yellow eye.
Goethe.—Large fiery red.
Hercules.—Light purple; white eye.
Isabella.—Rich moroon.

Marmorata.—Flamed pink and white.
Othello.—Large pink; fine.
Pegasus.—Dark scarlet
Schiller.—Vermilion yellow eye.
Sylphide.—Scarlet shaded purple.
Vulpian.—Magenta white eye.

New Tropæolum, Empress of China.—A fine novelty, strong and free blooming. Flowers of particularly rich saffron-yellow, each petal having a bright scarlet blotch, and elegantly fringed. Price, 25 cents each.

New Violet, M'me Millot.—First real red-shade violet in existence; flowers very double, and similar to the well-known Maria Louise; extremely high-scented. 25 cents each.

New Cosmos.—A beautiful autumn flower, growing 4 to 5 feet high; finely laciniated foliage, contrasting beautifully with its Anemone-like flowers of various pleasing shades and tints. Price, 15 cents each; $1.50 per dozen.

Torenia, New White.—A sport of the lovely Torenia Fournerii, which is one of the best of our bedding-plants, and unique in color. This new white variety will be very acceptable for all sorts of purposes. Ready April 1. Price, 20 cents each.

Salpiglossis, Large-flowering.—These improved sorts are amongst the handsomest of our summer-flowering plants, and deserve to be in every garden. The flowers are from 2 to 2½ inches across, borne in loose clusters of richest scarlet, violet, yellow, azure; flesh-white, pink, etc., for ground-work; laced and veined, and penciling of golden yellow running into a broad yellow throat. 15 cents each; $1.00 per dozen.

Petunias, Large-flowering Superbissima.—Grand flowers finely fringed of richest, azure, amaranth, and purple flowers streaked white; surpassing the double sorts in constant blooming. 15 cents each; $1.50 per dozen.

New Ten-week Stock, Princesse Alice.—A dwarf, large-flowering wall-flower-leaved stock, very desirable for constant blooming; sweet perfume; splendid for cut-flowers. 15 cents each; $1.50 per dozen.

New Hardy Ever-blooming Rose, Dinsmore.—The wish of many years fulfilled; a perfectly hardy bedding rose of good form, a profuse bloomer, and hardy even in the Northern States This desideratum has been found in above-named variety. Large, perfect flowers of a dazzling scarlet crimson; highly scented. Price, 40 cents each.

New Ever-blooming Rose, "Meteor."—The "Meteor" is a remarkably rich, dark-velvety crimson rose; so dark indeed that under certain conditions it is blackish crimson. It is a constant and profuse bloomer, very vigorous and healthy in growth, with no tendency to mildew. No dark-red rose ever before offered will be as useful for summer cut flowers, as it is so double that it produces perfect flowers in the hottest weather. Each, 50 cents.
